

## PRESS RELEASE

21 July, 2008

### **Kährs chosen for 'The Spa' at Gleneagles**

**Over 600 square metres of Kährs Walnut Vermont has been installed within The Spa at Gleneagles by ESPA. The application follows an earlier installation of Kährs flooring within the Deseo restaurant dining area, at the world-renowned AA Five Red Star resort in Perthshire, Scotland. All flooring was supplied and installed by Scottish Flooring Contractor, G L Floors, for builders, Rok.**

Set in 850 acres of beautiful countryside in the heart of Scotland, Gleneagles boasts one of the most luxurious destination spas in the world. The new spa was designed by leading spa brand ESPA and award winning interior designer, Amanda Rosa. Kährs Walnut Vermont was installed throughout all twenty treatment rooms, adjoining corridors and relaxation rooms; with its rich conker tone, the Walnut wood floor is the perfect complement to the elegant cream and brown colour scheme used throughout.

Kährs Walnut Vermont is a rustic one-strip floor from Kährs American Naturals Collection. It features a bevelled edge, a durable satin lacquer prefinish and glueless Woodloc® joint, which allows the boards to be locked automatically into place.
