FLOOR UNDERLAYER 2 MM

Underlayer for reduction of impact- and airborne sound. This product works well over floor heating systems.

Underlayer for reduction of impact- and airborne sound. This product works well over floor heating systems.

Ideal for floating parquet and laminate flooring

Polyethylene foam with closed cells and fine cell structure for high compression strength and Impact Sound improvement

Light, strong and flexible

Makes the floor more comfortable to walk on

Suitable in connection with the floor heating systems

Age resistance > 50 years

100% recyclable

Material: Polyethylene

Density: 30 kg/m³

Impact Sound IS: 15 - 19 Db

Compressive strength CS: 22,7 kPa

Compressive creep CC: 2,4 kPa

Punctual conformability PC: 1,5 mm

Thermal resistance TR: 0,045 m²K/W

Water vapor resistance SD: 10,9 m

Product details

- Ideal for floating parquet and laminate flooring
- Polyethylene foam with closed cells and fine cell structure for high compression strength and Impact Sound improvement
- Light, strong and flexible
- Makes the floor more comfortable to walk on
- Suitable in connection with the floor heating systems
- Age resistance > 50 years
- 100% recyclable
