KÄHRs LUXURY TILES CLICK
BEAUTIFUL FLOORS FOR EVERYDAY LIFE

LUXURY TILES CLICK DESIGN BY KÄHRS

With over a hundred years of knowledge and passion about working close to nature, using, and refining its' raw material, we know what wood means to people.

Just as much as we value traditions and feel proud of our heritage in the craft, we are also strongly motivated by our desire to exceed expectations. We continuously strive to develop, improve, and make tomorrow's range of floors even better.

With all our knowledge and passion for wood we wanted to use all our expertise to merge design with innovation and create new possibilities. The beautiful wood design and versatile function in our Luxury Tiles Click gives you a floor beyond expectations.

KÄHRS LUXURY TILES CLICK

BREEZE COLLECTION

The Breeze Collection is inspired by the subtle variations in nature painted by the wind. The collection consists of six modern and beautiful colors, in an inspiring range from sandy tones transitioning into darker shades, creating both depth and calm.

The serene color scale and the soft and natural tones create an inspiring and versatile foundation for a modern home. The look and feel of the design has been created to reflect a calm look of wood with less knots and cracks but with a variation in grain which creates a soft contrast. With a micro-bevel on all edges the one-strip plank design has been accentuated to add that extra touch to your home.

NATURE COLLECTION

Nature is loaded with hues and variations and that has inspired us to create the Kährs Luxury Tiles Nature collection. The collection's color scheme sweeps through nature and comes in seven vibrant colors.

The different tones and nuances have gathered its inspiration from the crispy and bright shades found in widespread dunes, the golden afternoon light and the deep earthy tones found in a dense forest. The design has been created to give a lively look of wood with subtle yet obvious graining, cracks and knots. The one strip-plank design has been accentuated with a micro-bevel on all edges which creates a premium effect.

NORDIC CLASSIC COLLECTION

The handcraft has been a part of our DNA since day one and having our roots in the Nordics makes it easy to be inspired by the nature that we live in. With gratitude for our heritage, we introduce The Nordic Classic Collection. In a wide range of nine grounded colors, the collection reflects the diverse landscape of the north. The shades and nuances have gathered their inspiration from the light dunes, long coastlines, deep forests, and high mountains found in our northern landscapes.

DIDNOK

Through Synchron embossing, we have created a dynamic design which enhances the feeling of a rustic and lifelike structure of the floor. Obvious graining, cracks, and knots are skillfully reproduced in the one-strip plank, and the effect is salient. Our Nordic Classic Collection feels true to nature and offers excellent versatility which fit all contrasts of life.

SIZE

PLANK SIZE: 218 X 1210 X 6 MM
WEAR CLASS: 23/33/42
8 PCS/BOX
BOX: 2.112 M²/BOX

Ceramic coating
Wear resistant layer
Decorative layer
SPC substrate
IXPE Sound reducing backing

5G CLICK

All floors in the Click format have the unique 5G locking technology which enables easy installation.

WATERPROOF MATERIAL

All floors in the Kährs Luxury tiles range are made of waterproof material, as they are free from any organic materials.

SOUND REDUCTION

All floors have IXPE sound-reducing backing, effectively controlling noise and reducing the sound up to 20db.

RIGID CORE

The floors feature a rigid core, made from a composite of vinyl and stone dust. This gives the floor superior strength and stability – and also makes the floors easy to install.

FREE FROM PHTHALATES

All Kährs Luxury Tiles floors are phthalate-free.

UNDERFLOOR HEATING

All Kährs Luxury Tiles can be installed on an existing floor, making them ideal to use in renovation projects or when you want to retain the existing floor. They are also ideal for installation with underfloor heating.

CERAMIC COATING

The surface of the Luxury Tiles floors is treated with a strong ceramic coating, which gives the floors superior resistance to wear and tear, scratching and water.
