FLOORS BEYOND EXPECTATIONS

Kährs LVT Price Guide 2025

Floors beyond expectations

The homes we live in are never just bricks and mortar or glass and steel; they also represent chapters of our lives and places of sanctuary. Within this inspiration and design guide you will find floors that can transform the way a home looks, feels and is lived in. Floors that go beyond your expectations.

WWW.KAHR.S.COM

Swedish heritage

Historically, Swedes have been used to centuries of scarcity and rough climate. By necessity, we've been resourceful by nature and it's here our tradition of refinement is to be found. We've lived close to, in and by natural resources for centuries and we learnt how to make them valuable.

By taking care of them, they have taken care of us. The ability to make a lot from little is the key reason for Sweden's growth as an industrial force. With an innovative mindset, a sustainable approach and dedicated work we are used to maximising potentials – in both nature and each other.

The same goes for Kährs as a brand. It's in our DNA. It's our heritage. It's our future. And it's how we not only live up to the expectations.

But go beyond them.

A proud history since 1857

Kährs have a proud history working with wood production dating back to 1857.

In 1941 we registered the first patent for what is known as engineered wooden floors, a groundbreaking innovation at that time.

Fast forward to today, and we are now also market leaders in designing and supplying LVT floors for homes and commercial buildings.

We continue to lead the market on key areas of quality, design, sustainability and innovation.

For almost 100 years, generations of families and project clients have trusted us to supply quality flooring products to make a house a home, and to last a generation. **That makes us proud.**

A lifestyle choice for your home

Our design roots are Scandinavian, but we are also in step with what lifestyle choices are being made in the UK.

The Kährs meaning of Scandinavian Design is more than just superficial. It's deeply rooted in functionality and purpose. It manifests something simple, yet strong enough to withstand any challenge put on it.

Modern, yet timeless enough to outlive trends. Minimalist, yet welcoming enough to express a pleasant invitation to whomever may be the guest.

It is a celebration of non-compromising quality – wherever it is to be found. The phrase – just like our floors – is something that comes with many expectations.

Expectations we have to go beyond.

What we offer as standard that other brands don't

To design and produce a floor to not only look beautiful and to last for generations it needs to be produced in a certain way, our heritage proves we know how this needs to be done.

We believe that LVT floors should not only look like real wood, but they should also feel like real wood. We offer long length wood planks and slab size stone designs as standard in addition to smaller formats.

Beautiful floors are about the details

Kährs have a passion around designing and producing beautiful floors. We understand the details on how to design a LVT floor to look and feel like an authentic wooden floor.

IF YOU CAN SEE IT, YOU CAN FEEL IT

On our EIR embossed floors if you see a knot, you can feel the knot. The EIR technology brings depth to the surface of the floor creating a slightly brushed textured finish. On our large size XXL wood planks this creates the highest authentic design available.

COLOUR TONES

Natural or honey oaks to smoke brown tones with wispy whites in between, we have all the colour tones you need to choose a floor that suits your character and style.

Details are important to us, such as large plank sizes, pattern designs, soft bevel edges & graining texture. We create our floors in different grades from calm to rustic.

Details on the surface are where we bring our expertise, where we can replicate brushing texture and highlight knots via EIR embossing, sealing the surface with an Ultra Matt coating to replicate the soft sheen of an oiled floor, protected by our unique ceramic coating.

It is a given we also make our floors soft underfoot and quiet to walk on.

ENVIRONMENTAL RESPONSIBILITY

Kährs leading the way on flooring sustainability

We feel that not only is it important for sustainability to be one of the main pillars of our business, but that we also have an environmental responsibility. Choosing a Kährs floor is a smart and green choice for the environment, both indoors and for our planet.

Kährs are one of the world’s oldest and most innovative manufacturers of flooring. Our innovations have radically transformed the global flooring industry and contributed towards sustainable development. We are always trying to find ways to make our production process more environmentally friendly.

Through the environmentally conscious production, we do our best to continually drive sustainable development in the flooring industry.

To find out more on how we lead the flooring industry on offering transparency on our environmental responsibilities, download our environmental certifications and learn more about what sustainability means to us at Kährs.

Responsibility at every step

Embracing the highest standards and regulations we take responsibility throughout our value chain. Together with our stakeholders, we deliver a positive impact on people and planet.

Natural designs

Designs and colours inspired by nature for increased well-being through biophilia.

Healthy homes & interiors

Responsible chemical use ensures healthy indoor air-quality and homes.

Long-lasting quality

All Kährs floors can either be maintained, repaired, and refurbished to extend their lifetime.

Transparent climate footprint

A target of 100% Environmentally Product Declared products, giving transparency in how much a Kährs product will contribute to reducing the CO2 impact.

Contribute to better living

Certified and environmentally declared floors which contribute to environmentally-friendly homes and buildings.

Powered by renewables

From 2024 all Kährs flooring production is powered through renewable energy.

Closing the loop

The majority of Kährs floors consist of either renewable materials, recycled materials or materials which can be recycled into new floors or new products.

PRODUCT OVERVIEW

Our product features

Ceramic coating

Most LVT’s sold in UK come with a low-quality PU coating offering little resistant to dirt and stains, our ceramic coating ensures our floors are scratch, dirt and stain resistant.

Acoustic underlay

Apart from our 120 x 720 x 5mm herringbones all our Click LVT floors come with an acoustic underlay achieving up to 20DBs, ensuring that they are not only soft underfoot but quiet to walk on.

Warranties

We offer a 30-year warranty for our 0.7mm wear layer designs, 20 years for our 0.55mm designs & 10 years for our 0.3mm designs.

Easy fit

All our Click products are designed to be easy to fit, with little preparation or waiting time after installation. Our Click products if correctly installed around doorways do not need a threshold bar at doorways.

Soft micro bevel

All our LVT floors feature a soft micro bevel that ensures each plank or tile stands out whilst creating no issues with maintenance or cleaning.

Brushed features

EIR embossing technology creates a textured almost gentle brushing effect to create an authentic look and feel to our wood Plank & Pattern designs.

Phthalate free

All our LVT floors are Phthalate free supporting better indoor air quality.

Waterproof material

All our LVT floors are made from waterproof material and suited for all rooms in the home including bathrooms, kitchens & hallways.

For under floor heating

All our LVT floors are warranted for all types of under floor heating systems including electric and water-pump systems.

Conservatory friendly

Our Gluedown designs can be installed into large sunrooms or conservatories by using special heat sensitive adhesive without any issues. Our Click products can also be installed into sunrooms and conservatories if the heat is regulated.

Low sheen

Some of our LVT designs feature our Ultra Matt finish ensuring one of the lowest sheen levels in the market.

So many design options

In addition to our wood Planks, we have Herringbone & Chevron pattern options to create endless design opportunities to help create a unique floor.

Proven quality

Quality is easy to promise, but only time can truly validate that promise. Lasting quality isn't measured in days or months, but in years and decades. With a heritage spanning almost 170 years, Kährs has consistently upheld our commitment to quality.

It's not just a claim for us - it's a legacy we've kept cultivating. It's a circular force of quality. Every floor we produce reflects this dedication. Crafted with precision and care, our floors embodies this pursuit. But the floors are merely the end result of something else - an attitude. An attitude that stipulates quality in all the steps of the process - internally and externally: purchase, production, sales and customer service.

No matter where, we provide an experience that withstands the test of time, not just for today, but for tomorrow and all the days beyond. As market leader it's something that's expected from us. If we want to keep that position it's our responsibility to not just meet these expectations. **But to go beyond them.**

Our warranty and promise to you

We don't work with any gimmicks around our warranties such as offers of lifetime warranties that last for only 10 years. You can see below we offer simple transparent warranties around all our LVT floors and our promise to you is that they are genuine.

Depending which product you choose we offer a:

0.7 wear layer: 30 year warranty

0.55 wear layer: 20 year warranty

0.3 wear layer: 10 year warranty

All our LVT flooring products are suitable for any type of under floor heating system which is covered within your warranty.

Visit our website and find out more on our warranties and how to register them with an approved Kährs dealer.

Trend insights 2025

Kährs' 2025 trend predictions highlight a shift toward colours that evoke tranquility and nature, with soft neutrals - bringing the outdoors in. Sulky blues and amber accents that offers energy and boldness, making them perfect for creating versatile and personalized spaces. Transformative pastels, blending blue, purple, and dusty pink, to reflect an eco-conscious mindset. And lastly, terracotta tones will bring warmth and connection to nature, perfectly complementing Kährs' classic oak design flooring.

Chapters of Change

As we write the next chapter of flooring design in 2025, Circularity takes centre stage. Eco-Friendly Materials: Recycled, renewable, and locally sourced materials will become the norm. Floors made from sustainable sources and innovative materials that minimize carbon footprint will be in high demand.

Authoring Spaces

At the heart of this trend is the power of Pattern-Play. While minimalism will remain popular, there will also be a rise in patterned floors such as chevron. Classic patterns give interiors a sense of dynamic movement while maintaining a timeless appeal.

Narrative of Nature

This trend embraces Nature-Inspired Aesthetics; organic materials, natural textures, and earthy tones. To create a seamless connection with the environment. Each floor tells a unique story —crafted through traditional methods and enriched by modern advancements. Whether it's the texture of raw wood or subtle hues that evoke nature's palette, these floors create spaces that feel grounded, timeless, and full of character with Texture as a Statement.

Eternal Icons

This insight delves into the fusion of classic design principles with a modern twist, infusing spaces with elegance that withstands the test of time. With timeless and natural elements refreshed for modern spaces, Kährs ensures that our floors stand as enduring icons of design—beautiful today and tomorrow.

How to choose your perfect floor

Our best advice when it comes to choosing a floor: go with your heart.

However, there are some important aspects to consider in the selection process, and to help, we have compiled a short checklist to guide you.

The best thing to do is to visit one of our approved retailers, as nothing beats seeing and feeling our floors to get a true grasp of their design features.

Calm or rustic grades?

Clean, calm and elegant – or rustic, rich in patina, knots and cracks? Kährs offers a selection of different designs, each with a unique character.

We work with three different design grades:

CALM
Our calm grade designs are where you will find floors that have a clean calm grade wood design, achieving a sophisticated look in any interior.

WARM & LIVELY
Our warm & lively wood collections feature warm and lively wood grading. The authentic wood designs are enhanced by realistic wood graining and knots

RUSTIC
Our rustic grade wood collections offer characterful rustic wood designs with lots of colour variation enhanced by registered embossing for an authentic look and feel.

What format is best for you?

GLUEDOWN DESIGNS

Our Gluedown wood & stone formats allow you to create your own design floor. You can easily add in feature borders and work with different pattern designs due to the construction format.

Gluedown formats are warranted for all rooms within the home including large sunrooms or conservatories and are suitable for any type of under floor heating system. Due to being glued to the subfloor, Gluedown format constructions require no expansion details and can be installed directly up to walls.

CLICK DESIGNS

Our Rigid click wood & stone designs allow you to install a floor without any adhesive. All our Click designs apart from our 120 x 720 x 5mm herringbones, come with an integrated soundproof and waterproof underlay providing you with one of the quietest floors to walk on in the market in addition to being soft underfoot.

Our click designs require a small expansion detail that can be hidden by one of our matching mouldings. The Click designs come the latest technology in locking joint systems that guarantees your floor will not gap and can be easily uplifted and relayed if need be.

Click formats are warranted for all rooms within the home including large sunrooms or conservatories where the room temperature is regulated.

Pattern options

Choose from one of our classic Chevron or Herringbone pattern designs with an option to match with the same colour Plank design

KÄHRS FLOOR PLANNER

The ideal tool when choosing a floor

We developed a digital floor planner to help you choose the ideal floor for your home. It allows you to quickly and easily upload an image of your interior, and then simply browse around our broad portfolio of floors and try them out until you find your favourite. This technology enables you to get a real impression of what the floor will look like in your home.

Download floor planner here.

YOUR PERFECT FLOOR

Five step guide

- 1

Be inspired

Our room visualizer will offer design inspiration on what your floor can look like in your own room.
- 2

Select your floor

Narrow down your choice to wood or stone colours or you may decide to use both designs. Consider what is the best option for your project between Gluedown or Click format.
- 3

Order free samples

Order your free samples at sales@kahrs.com and they will be with you within a few days. Make sure you view your samples in natural light.
- 4

Discuss your project

Visit one of our approved retailers who can support you with advice on installation, how to purchase your floor and how to register your warranty. Or call our UK team on 02392 453 045
- 5

Enjoy your new floor

Your floor will last for many years and we offer advice how to clean and maintain your floor in a few easy steps in the back of this guide

RUSTIC GRADES

Nordic Wood Collection

Handcraft is a part of Kährs’ DNA and with our roots in the Nordics we created Nordic Classic Collection as a tribute to our heritage. In a wide range of grounded colours, the collection reflects the diverse landscape of the north with inspiration from the light dunes, long coastlines, deep forests, and high mountains found in our northern landscapes. EIR Synchrone embossing technology creates a dynamic design which enhances the feeling of a rustic and lifelike structure of real wood floors.

CLEANING YOUR FLOOR

Designed for peace of mind

With our special ceramic coating ensuring the floor remains highly resistant to scratches, dirt and stains, our LVT floors are designed to offer peace of mind that your floor will not only look great but last for years to come.

Technical support

A Kährs floor installed following our installation & maintenance guidelines will last for generations.

Kährs are seen as the experts in how to offer guidance on how an LVT floor should be installed and we provide everything that may be needed by your installer and for yourself on how to install and maintain your floor.

You can download all our installation and maintenance manuals from our website or contact us with any questions you have at sales@kahrs.com
