

DECLARATION OF CONTENTS

FLOOR SURFACE MATERIAL , wood floor

Supplier: Fusong Jin Long Wooden Product Co., Ltd Date: 2010-05-11
 Product: 20mm natural-oiled parquet floor with play wood construction
 Specification: 2800*2600*20/6mm (Grand collection)

Components	Specifications	%by weight g/m2	
Surface treatment	Based on vegetable oils	<1	<80
Wear layer	Chemically-untreated wood,5.5mm ,oak	33	4600
Intermediate material	A ply wood lamella of poplar	49	6800
Base material	Chemically-untreated poplar veneer	8.7	1200
Glue	Urea resin glue from Dynea	8.3	1150
Other components	Filler	<0.1	<2
Total:		100	13750

Other information

1. The information on percentage by weight and g/m2 are averages since the density varies both within and between species of wood.
2. The surface treatment and filler are free from solvents and formaldehyde.
3. Both carbamide and urea resin glues have water as a solvent.

Comments

1. The declaration of contents state all the components included (newly-manufactured products). Summary designations can be used.
2. The proportions of the components are rounded off to the nearest percentage by weight and g/m2.
3. The values can be stated as a range.
4. Percentage proportion below 2% can be stated as <2% and respective corresponding surface weight.
5. Any pigment is stated under "Other components" with Color Index No. The quantity of pigment is given as range for the entire collection.
